

DATASHEET

# Fuelfix & Tanks2Go SOLAR SKID 1.8kW

Fuelfix rapid deployment solar skid is a modular unit that can be scaled to suit any requirement. Deployed in minutes to suit temporary use such as after bushfires or floods or on construction projects to minimise install/removal time and site impact.

## Ease of transport

- Forklift ports designed to allow safe and easy handling of the unit
- Compact design, interlocking stacking enables quick and remote delivery

## Zero Carbon Emission

- Fully solar powered, no noise pollution
- Zero harmful exhaust fumes for health of workers

## Durable

- Constructed on a hot dip galvanised frame to ensure a long service life and structural rigidity

## Highly Efficient and Cost Effective

- The Solar Skid can be adjusted from zero to 40 degrees making it ideal to use in different regions to maximise solar yield

Model: <b>SOLAR SKID</b>	Power: <b>1.78kWp</b>
Voltage (Voc): <b>196.8v</b>	Current (Isc): <b>11.45A</b>
Dimension: <b>4455 x 2240 x 300 (LxWxH)</b>	Weight: <b>750 kg</b>
<b>Per 40' flat bed:</b> 22	Rapid Deployment, interlocking in rows
Transport: <b>Forklift ports, Interlocking stacking</b>	Solar Tilt Angle: <b>0-40° one man lift</b>
Mounting: <b>Ballast, Tube piles, Bolt-down anchor points</b>
