

FACILITY MANAGEMENT SERVICES

Fuelfix offers the experience and capabilities for efficient and safe ship to port operations.

Supporting some of Australia's biggest energy providers, our team ensures the safe and efficient tankship discharging and bunkering of fuel products across the country.

Our highly trained port teams provide essential 24/7 services for ports and maritime facilities across Australia, unloading numerous products such as unleaded, diesel, naphtha, marine oil, bitumen and LPG.

Our team's skill set:

- Shore office
- Terminal operations
- Wharf attendant
- Pipeline patrols
- Connections & disconnections
- Sampling
- Bunkering
- Rail car loading

Our team can also offer services in your depot with maintenance and compliance. The national Fuelfix team allows us to provide electrical and fitting trades to assist in most tasks onsite. We can offer pipe and valve maintenance, calibrations and maintenance tasks onsite.

Fuelfix is already operating in Hamilton, Pinkenba, Port Hedland, Geraldton, Kwinana, Groote Eylandt, Brisbane, Newcastle, Townsville and Perth.
